

## Hub and Innovation Manager (m/w/x)

**Factory Hub Vienna** was opened in September 2017 and currently offers an innovative working environment for 10 maker and start-up projects. The total of 14 coworking seats are suitable for start-ups in the field of electronics, as developers will find not only a desk but also technical equipment from TELE Haase.

As one of the first corporate coworking spaces with an attached electronics production, Factory Hub Vienna is directly embedded in the Viennese start-up ecosystem. The symbiosis within the TELE Haase company increases the chance for successful innovations to emerge.

This **coworking space**, which is supported by the FFG within the framework of the Innovation Workshop Program, implements the Open Innovation Strategy of Austria.

Find out together with us how the **company of the future** will function and develop yourself further in a living organism.

Do you want to take responsibility for the Factory Hub Vienna? Then apply now!

## You've come to the right place if you enjoy...

- Scouting Hardware Start-Ups
- Helping start-ups succeed
- Organizing events and creating a vibrant community
- Accompanying innovation projects in ideation and prototyping phases
- Initiating and shaping sustainable partnerships

- Further development of the business model of the Factory Hub
- Constructive discourse and collaborative work
- Networking with all relevant stakeholders around the company of the future

## You are...

- Communicative, self-confident, enthusiastic and convincing
- Curious, committed and economically interested
- An expert on the start-up scene
- Ideally you have gained experience in a start-up company and have built up a network
- You can do Design Thinking Workshops and Lean startup methods are known to you
